## Featured Food Groups

The benefits of healthy eating add up over time, bite by bite. Small changes matter. Start Simple with MyPlate.

A healthy eating routine is important at every stage of life. It can have positive effects that add up over time. It's important to eat a variety of fruits, vegetables, grains, protein foods, and dairy or fortified alternatives. When deciding what to eat or drink, choose options that are full of nutrients. Make every bite count.

The **Fruit** Group includes all fruits and 100% fruit juice. Fruits may be fresh, frozen, canned, or dried/dehydrated. At least half of the recommended amount of fruit eaten should come from whole fruit, rather than 100% fruit juice.

## Cooking Tips

- Substitute berries with other juicy fruit, such as cherries, peaches, nectarines, apricots, or plums.
- After it's cooled, blend the jam (with an immersion or regular blender) if you prefer a smoother texture.
- Refrigerate in a tightly sealed jar or container up to one week.
